Todo List (Backend)

ExpressJS, MongoDB, HTML, CSS, JS

CERTIFICATIONS

- Full Stack Web Development Bootcamp by Angela Yu – Udemy.
- NodeJS and React Complete Guide by Maximillian Schwarz muller - Udemy.

EXPERIENCE

TECH MAHINDRA

Web Developer

2019 - 2020 | Gurugram, New Delhi

- Collaborated on the development of enterprise-scale applications by translating business requirements into efficient and high-performing JavaScript code.
- Identified and resolved performance bottlenecks in existing implementations, improving overall system efficiency and functionality.
- Co-led the complete overhaul of a client's website, implementing cutting-edge JavaScript solutions to enhance user experience and improve performance.

PROJECTS

POS (Point of Sale)

ReactJS, NodeJS, MongoDB

- Developed a point of sale application that allows users to process transactions and manage orders.
- Implemented features such as generating invoices, track old orders, user authentication, and sales reporting, used ReduxJS to implement solutions.

PERSONAL DAIRY

ReactJS, NodeJS, MongoDB

- Developed a personal diary application that allows users to create, read, update, and delete diary entries.
- Implemented Rest Api and features such as user authentication using bcrypt and JWT tokens, and protected routes to ensure only authenticated users can access.

JOB PORTAL

ReactJS, Mobile Responsive Design, Context API

- Developed a job portal front-end application with a mobile-responsive design inspired by the Gmail theme.
- Implemented functional job search functionality with keyword search and recommendation, helping users find job openings that match their skills and interests.

AWARDS | HONOURS

- Earned the second position in a Hackathon at Chandigarh for a creative and innovative application idea in 2017.
- Led a college football team to their first-ever trophy in an Inter-College Tournament, demonstrating strong leadership and teamwork skills..
